PROFESSIONAL PROFILE

Microsoft Power Platform Consultant with four years of commercial experience designing and delivering low-code business solutions, automation and integrations. Strong hands-on experience with Microsoft Copilot, Copilot Studio and AI Builder, spanning implementation, enterprise consulting, technical coaching and corporate training. PL-200 and PL-900 certified, with the ability to translate business requirements into practical, maintainable solutions across the Microsoft ecosystem.

CORE EXPERTISE

Power Platform: Power Apps (canvas and model-driven apps; Power Fx), Power Automate (cloud and desktop flows), Dataverse, Power BI and Power Pages

Copilot & AI: Microsoft Copilot, Copilot Studio, AI Builder (AI Hub), AI-enabled low-code solutions and enterprise enablement

Integration & Development: REST and SOAP APIs, SQL, relational databases, .NET, SharePoint, SPFx, React, TypeScript and PnPjs

Consulting & Delivery: Requirements and process analysis, solution design, implementation, testing, documentation, adoption, coaching, corporate training and governance best practices

ALM & Deployment: Power Platform solutions and connection references; deployment pipelines and version control used in selected projects and an internal ALM proof of concept.

PROFESSIONAL EXPERIENCE

Microsoft Power Platform Consultant & Coach

Niteo Technologies | Nov 2024 - Apr 2026 | São Paulo, Brazil | Hybrid

- Advised and coached an enterprise client team during the creation of a Copilot-based business solution, combining functional discovery, solution-design guidance, implementation support and adoption.
- Delivered implementation and consulting engagements using Microsoft Copilot, Copilot Studio, AI Builder, Power Apps, Power Automate and Dataverse, translating business needs into practical low-code solutions.
- Guided business users, citizen developers and technical teams in building and improving Canvas and model-driven apps, cloud and desktop flows, Dataverse solutions, dashboards and portals.
- Led tailored corporate training, workshops, webinars and hands-on labs across Power Platform, Microsoft Copilot, Copilot Studio and AI Builder, both remotely and in person.
- Analysed processes, identified automation opportunities, troubleshoot solutions and promoted best practices across security, environment management, integrations and governance.
- Delivered initiatives that received consistently strong client feedback, including NPS scores above 90.

PROFESSIONAL EXPERIENCE

Junior Power Platform Analyst

Siplan | Apr 2024 - Jun 2024 | São Paulo, Brazil | Hybrid

- Developed business pages, applications and components using Power Pages, SharePoint Framework, React, TypeScript and PnPjs within Microsoft 365.
- Built Power Automate workflows and integrated SharePoint and Microsoft 365 solutions to digitalise business processes.
- Contributed to requirements analysis, testing, debugging and iterative improvement of tailored applications.

Junior Systems Analyst

MLEGATE Solutions | Feb 2022 - Apr 2024 | São Paulo, Brazil | Hybrid

- Developed Power Apps solutions for HR, Accounting and Operations, supporting leave, contracts, teams, deadlines and operational information.
- Built Power Automate flows for tasks, notifications, approvals, tax-related queries and data transfers.
- Created Power BI dashboards and reports to monitor indicators and support decision-making.
- Integrated external systems through REST and SOAP APIs, working with SQL, relational databases and .NET back-end services.
- Supported the full solution lifecycle, from requirements and process analysis through development, testing, documentation, user support and continuous improvement.

EDUCATION

Bachelor's Degree in Information Systems - in progress | FIAP | Feb 2023 - Expected Dec 2026

Focus areas include software engineering, systems analysis, databases, cloud computing, DevOps, security, data and business-process analysis.
